| Week 3 and 4 — <i>Open Training / Technical Development</i> ..... | 15 |

## Introduction: Why This Content, at This Age?

Brazilian Jiu-Jitsu plays a fundamental role in the physical, cognitive, and social development of children between the ages of 7 and 11. At this stage, students improve their coordination, balance, concentration, problem-solving abilities, discipline, and self-confidence.

Through a structured and progressive curriculum, students learn how to apply techniques safely while developing respect, responsibility, resilience, teamwork, and self-control. The program is designed to provide a solid technical foundation while ensuring an engaging and enjoyable learning environment.

The curriculum is organized progressively throughout the year, covering takedowns, guard positions, guard passes, sweeps, positional control, escapes, back attacks, and submissions, allowing students to develop a comprehensive understanding of Brazilian Jiu-Jitsu.

This document serves as a reference guide for the team's instructors: each month is divided into weekly classes, with the themes and techniques to be covered, ensuring that all Kids classes across the team follow the same pedagogical path throughout the year.

## 01 JANUARY

---

### Week 1 — *Takedowns, Guard Passing and Sweeps*

- Double leg takedown
- Closed guard pass (knee over the leg)
- Pendulum sweep

### Week 2 — *Closed Guard Attacks*

- Double leg takedown
- Cross collar choke from closed guard
- Armbar from closed guard
